Janani, III Year EEE welcomed the gathering and Ms. Kausigasri, III year EEE gave an introduction about the resource person. The resource person shared concepts about value education. She shared that the students can start finding that technical education without study of human values can generate more problems than solutions. They also start feeling that lack of understanding of human values is the root cause of most of the present-day problems; and a sustained solution could emerge only through understanding of value-based living.

Ms. Rashmika, II Year EEE gave feedback about the session. Ms. Esther Jemima, IV year EEE gave vote of thanks. Finally, the programme was ended with vote of thanks. Totally, 70 Students and 9 faculties attended the program.
